We present unique pieces to inspire and excite.

Our designs are influenced by traditional artisan skills passed by master craftsmen through the generations, so that every Pacific Green item has a heritage and a sense of its global origin.

Pacific Green is a global ambassador for responsible manufacturing. Materials are from sustainable operations or by-products of other farming activities (like our leathers that come from beef cows). Products use Palmwood®, a sustainable alternative to hardwood exclusive to Pacific Green.

All pieces are sculpted by hand from superior natural materials sourced from around the world. Furniture with intrinsic value. Structurally reinforced to last a lifetime.

PACIFIC GREEN LEATHERS & HIDES

Leather is unrivalled for luxury and comfort in furniture upholstery. Warm and forgiving. It appeals to the senses.

As a natural product, leather has its own character; a history revealed in the grain, patterning and pores. Lovers of leather appreciate these visual and tactile elements, and enjoy how they develop over years to convey the life of the chair.

Because leathers are unique, complex and adventurous, Pacific Green offers a range to satisfy different customer needs. All coverings are complimentary and 'mix and match' perfectly.

VÉRITÉ

VÉRITÉ is exclusive to our premium Vérité and Cosmopolitan furniture collections. This extra thick (3mm) full-grained leather is unequalled in durability and tactility. Calm and comforting, the leather gets better with age. VÉRITÉ's striking appeal comes from the visible pores, grain and surface patterns of the natural material, and so is lightly pigmented.

AGED

These full-grained and rawhide leathers are specially hand-treated to give them variegated colour effects and a rich surface texture. Techniques include waxing, distressing and screen-printing the leather.

SU - SUPERIOR

SU is an elegant leather with a silken look and touch. This full-grained leather (1.4mm thick) is steel-finished and oil-impregnated. As natural as possible, with a delicate surface glaze. SU is similar to the leathers used in clothes and handbags. It is a cultured choice for customers who seek a supple surface that will acquire natural features over time.

ADVENTURE

ADVENTURE contains our selection of Australian sheepskins and Brazilian cowhides. Shorn or unshorn. The Brindle unshorn bovine hides combine colours of tan, yellow, chocolate, grey in the way nature intended; each piece is unique.

HQ - HIGH QUALITY

HQ is a soft, stylish (1.7mm thick) leather for general-purpose usage. It is treated - painted and pigmented - for customers that seek a hardwearing leather that requires minimum maintenance and is protected against staining. HQ has a strong visual character with a lightly embossed grain.

A full-grained suede leather that makes a striking upholstery combination with the SU series
